

- ✓ Connective tissue health
- ✓ Blood vessel health
- ✓ Collagen formation
- ✓ Antioxidant

INGREDIENTS

Each capsule contains:

Vitis vinifera (Grape seed) extract dry conc (MASQUELIER's® Original OPCs)	100 mg
equiv. dry seed	12 g
Ascorbic acid (Vitamin C)	40 mg
Silicon dioxide	20 mg

No added wheat, sulphites, gluten, yeast, animal products, milk derivatives, eggs, soy bean products, lactose, sugars, artificial colours, flavours or preservatives. Contains sorbitol.

Suitable for vegans and vegetarians.

DIRECTIONS FOR USE

Adults: Take two capsules per day before a meal to assist general health. For cardiovascular system health, symptomatic relief of mild varicose veins and blood capillary health, take one capsule three times daily before meals, or as directed by your health professional.

If symptoms persist, talk to your health professional. Vitamin and mineral supplements can only be of assistance if dietary intake is inadequate.

Anthogenol® Like You've Never Seen It Before

Harnessing antioxidant action and exclusive MASQUELIER's® Original OPCs, Anthogenol® capsules are the ultimate supplement for improving skin health and integrity and maintaining a youthful appearance. But the powerful Anthogenol® formula is so much more than just a beauty supplement.

Cardiovascular System & Circulatory Support

Anthogenol® is a powerful antioxidant supplement to maintain cardiovascular system health. It can support blood circulation to the peripheral areas of the body (legs, hands and feet), and relieve symptoms of mild varicose veins.

Connective Tissue & Blood Vessel Health

Anthogenol® contains Silica and Vitamin C to help the synthesis of collagen in the body, to support tendon health, nail strength, skin integrity, connective tissue health and blood vessel health.

Ageing Well

Anthogenol® can help fight the signs of ageing through its unique three-way action cycle:

1. Collagen production support
2. Antioxidant protection
3. Supporting blood vessel health

By protecting and supporting our body's natural systems in this unique three-way action cycle, we support our health and vitality now and help prepare for a healthy future.

Collagen Formation & Skin Health

Anthogenol® is formulated with Vitamin C and Silica which can support collagen formation, skin integrity and skin health. Healthy collagen levels in the body contribute to supporting the health of tendons, skin, connective tissues, and strong nails. Collagen also plays a pivotal role in fighting the signs of ageing. As a protein that forms strong, insoluble fibres, collagen helps hold cells and blood vessels together and keeps them supple and firm. Collagen levels normally diminish over time, often leading to the appearance of premature ageing.

Powerful Antioxidant Action

Emotional and physical stress, poor diet, chemicals and pollution can all contribute to increased free radical damage in our bodies. Anthogenol®'s powerful antioxidant action helps to protect the body from the damaging effects of free radicals and maintain skin health.

The MASQUELIER's® Difference

MASQUELIER's® Anthogenol® cannot be compared to other Grape Seed extracts on the market. The potency of Anthogenol® is verified by what is known as Complex Phytonutrient Authentication (CPA), a highly specialised quality control method ensuring consistent composition. The OPCs in Anthogenol® are referred to as MASQUELIER's® Original OPCs to differentiate them from other products claiming to contain OPCs that do not undergo this exact extraction process and CPA.

A Lifetime of Research

Renowned French phyto (plant) scientist, Professor Masquelier, was the first to discover OPCs in 1948 and harness their nutritional qualities for therapeutic use. Anthogenol® now has over half a century of scientific research supporting its many benefits.

Science-backed Verification

Anthogenol® ingredients undergo CPA verification, a highly specialised quality control method providing a science-backed guarantee of excellence in quality.

Frequently Asked Questions

Q Who should take Anthogenol®?

A Anthogenol® is recommended for anyone (20 years plus) who wants to age healthily, and especially for those who are looking for:

- Antioxidant protection
- Cardiovascular system & circulatory support
- Connective tissue & bone health support
- Relief from symptoms of mild varicose veins
- Collagen formation and skin support

Q How long do I need to take Anthogenol® before I will experience results?

A The suggested dose of one capsule per day has shown benefits after three months, although benefits may be experienced sooner. To target skin, blood capillary and collagen health, you may take one capsule three times daily before meals, or as directed by your health professional.
