	cat2jennifer	ebay	So many reasons why this is a good product First & foremost its your heart & arteries that it protects Then its your skin Met a Pharmacist who had explored all relevant research & more on this product Id just happen to mention Id read about the product so it was by chance I picked the right person to ask about its efficacy One look at his glowing skin was all I needed The chat with him as very compelling as someone who had a scientific & medical background. That was many many years ago since then Ive been regularly taking the capsules

	Sue J	natonic.com.au	Anthogenol improved the circulation to my 88 year old mum's legs allowing a venous leg ulcer to heal after a couple of years of persistent treatment that made no difference- creams from the specialist, manuka honey, and other remedies. Mum's specialist was amazed and immediately looked up the product to read about it. Eighteen months later mum continues to use anthogenol to assist with her poor circulation. There has been no recurrence of the ulcer.		Verified
